Veolia – Development of an Energy Recovery Facility and Associated Infrastructure Alton Materials Recovery Facility, Farnham Road, Froyle, Alton.

Beech Parish Council objects to the proposed Advanced Energy Recovery Facility on the grounds of its unsuitable location. The plant will produce unhealthy emissions from a site that is located too close to Holybourne and Alton, and the emissions are likely to have an adverse health effect on all settlements within a 10 mile radius of the facility.

Mrs Louisa Thomson
Clerk to Beech Parish Council
